

## Assai DMS 12

### Built for the Way Projects Really Work

Projects only move as fast as their information. When drawings, documents, and reviews are easy to find and simple to share, progress follows. Assai DMS 12 is built to support that flow, giving teams a faster, clearer, more connected way to keep work moving.

#### Why you'll feel the difference

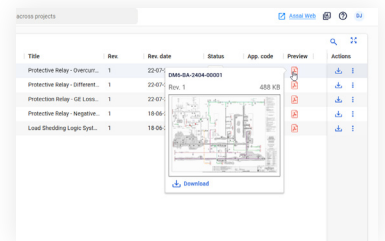

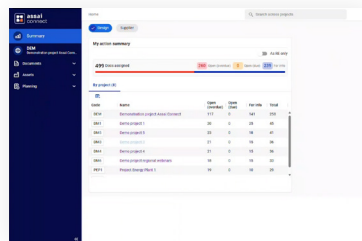

- Faster, more predictable reviews
- Quicker access to the information you need
- Smoother navigation across key workflows

#### The result

- More predictable handovers
- Fewer stalled reviews
- Clearer ownership and cleaner audit trails
- More consistent review progress across teams

#### Assai Connect the New Core of Assai DMS

Assai Connect introduces a modern, intuitive interface built for speed and focus. Navigation feels natural and search works across projects with a clearer and more flexible design. You can switch between Assai Web and Connect with no migration or retraining.

#### What you will notice

- A cleaner, redesigned interface
- Smoother document viewing and reviewing
- More capable search across projects

The same trusted system, now sharper and quicker, designed for people.

## Assai ReView - Collaboration That Flows

Assai ReView brings document collaboration into the platform. Users can markup, comment, and approve directly in the browser. No plugins and no version confusion.

Teams close reviews faster and keep communication clear.

## What's new in Assai DMS

### Assai Connect

#### New in Connect

- Cross-project search with advanced filters
- Direct links to document detail
- Faster clipboard handling for bulk checks

#### Redesigned and expanded in Connect

- Inbox delegation with full audit visibility
- Document, discipline, and company trees
- Package search with revision-level insight
- Work package search in the Planning module
- Modern document and revision detail screens

### Assai ReView

- Modern interface for reviewing and marking up documents
- Smoother performance for large files
- Clearer annotation and commenting workflow
- Layout aligned with Assai Connect for consistency
- Fully in browser with no plugins required

### Performance Gains

- Faster review cycles
- Better system responsiveness
- More predictable handovers

### System Improvements

- Custom transmittal templates with the new designer
- Automated handover indicators for document types
- Latest revision indicators in Admin and Portal uploads
- More flexible workflow email notifications
- Improved error messaging and UI consistency
- Extended project code and title lengths
- Support for read-only licenses
- Extended API endpoints for transmittals, files, and queries
